

# GANGSCOPE

Gang Intelligence Database

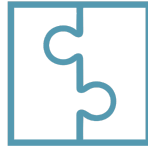

## DESIGNED WITH LAW ENFORCEMENT

GangScope is an organized crime & gang database software that allows you to manage known and suspected members on an easy to use platform that is accessible from anywhere within your network or on the AWS GovCloud. Manage all your gang or organized crime related intelligence in one place, including gangs, persons, incidents, images, documents, vehicles, associates, acquaintances, addresses, witnesses and more.

*"It's light years ahead of where we used to be.  
It makes officers safer and more effective."*

# ENSEMBLE GROUP

CREATIVE DIGITAL SOLUTIONS

## THE BIRTH OF GANGSCOPE

### **From Paper to Concept:**

The Corpus Christi Police Department was frustrated with the lack of detail and functionality within their RMS in regards to known or suspected Gang Members. This caused them to turn to a paper file system that while helpful, lacked heavy on any any true form of organization, collaboration and quick access to info. When the time came to take their paper files and turn them into a robust and useful digital platform, they reached out to Ensemble Group, a local digital solutions company in Corpus Christi.

### **Working with Law Enforcement:**

Ensemble Group worked with the Corpus Christi Police Department for over a year to create what is now GangScope. During that time, officers, supervisors and our software developers collaborated on a regular basis to fine tune every detail of the platform. The platform was developed, tested and re-worked to ensure it's features along with functionality were up to the highest standards. This collaboration of efforts was the perfect recipe to develop a platform that brings tremendous value to any police department.

## ENSEMBLE GROUP'S COMPANY PROFILE

### **Business Certifications:**

HUB (Historically Underutilized Business), State of Texas

### **Additional Information:**

Majority of stock is owned by women and/or minorities

### **Business Description:**

We are a web site design, web application and software developer who use the latest technologies to help our client/partners. Utilizing cutting edge processes, we solve our clients' business

challenges by providing custom built systems to increase productivity and economic returns. We enjoy what we do and we strive to be current on the newest technologies. We constantly challenge each other to go a little further, to learn something new or take that extra step.

We are driven to provide the best customer experience possible. We build trust with each and every client/partner, which becomes the foundation for client growth and ultimately lasting relationships.

**Company Strengths/Competitive Edge:**

Ensemble Group is not just re-selling mass-produced solutions that force you to work within some preconceived restraints. Ensemble Group listens and every one of our solutions is custom designed for you and specifically tailored to meet your organization's specific needs.

### DATA IMPORT

- **Import** your existing gang information from MS ACCESS, or Comma delimited files into GangScope

### MANAGE DATA ON

- **Suspected** and Known Members
- Adult and **Juvenile** Members
- Incidents
- Vehicles
- Witnesses
- Acquaintances
- Associates
- Images/Documents
- Qualifiers (28CFR)
- Locations
- Incarcerations

### 28 CFR COMPLIANT

- Purge notifications are sent once a member has met purge criteria
- Periodic reviews to make sure data stays up to date
- Comprehensive Supervisor review system helps improve the quality of data in GangScope

### INFORMATION ON THE GO

- Intranet Accessible - Your department's network or AWS GovCloud platform
- Runs in a modern web browsers
- Allows for access from squad car computers, smartphones, laptops and most other modern web capable devices

### EXTERNAL INTEGRATION

- Automatically submits Gang Member information to **TXGang** State Database for Texas entities
- Windows Active Directory (if available on network)
- System is customizable to import or export to your specific department's integrations

## **DETAILED REPORTING**

- Reports on people, gangs, incidents, vehicles, addresses, and many more
- Ability to limit results by a date range, or officer

## **MULTIPLE PERMISSION LEVELS**

- Admin, Supervisor, Gang Officer, Clerical and Officer each level with unique access

## **SECURE**

- Secured on your network and accessible to any officer or personnel allowed on the network – may be shared with external organizations for example: DA's Office, City Police Department, County Sheriff etc.
- Or on AWS GovCloud secure cloud solutions that comply with the FedRAMP High baseline; the DOJ's Criminal Justice Information Systems (CJIS) Security Policy and other compliance regimes

## **DAILY INTELLIGENCE REPORTS**

## **ACTIVITY NOTIFICATIONS ON GANGS AND MEMBERS**

### **SUSPECTED or KNOWN MEMBERS**

Track suspected and known gang members. GangScope historically builds the career of the suspected gang member before flagging them as a known gang member. Supervisor approval is required to transition a suspected gang member to a known gang member.

### **ADULT or JUVENILE**

GangScope clearly identifies Juveniles when their information is being viewed.

### **MOBILE / TABLET READY**

Upload documents straight from your phone at a crime scene.

\*\* Must be connected to their secure network

### **CHARACTERISTIC MANAGEMENT**

Maintain Identifying Characteristics of gang members, from scars, to marks, to tattoos. Store tags in the description area, for later searching (i.e. use advanced search to view all people with a dragon tattoo)

### **WITNESSES AND ACQUAINTANCES**

Track information on Witnesses and Acquaintances.

### **CUSTOMIZABLE DASHBOARD**

- Configure your Dashboard with quick access to the important information
- Advanced Search with ability to search on any stored database field. ex: "Show me everyone with black hair driving a Jeep Wrangler who has an acquaintance named John"

### **ORGANIZED APPROVAL PROCESS**

Supervisor Approves all information before becoming part of the database and viewable. Helps improve the quality of data in GangScope

### **NOTIFICATIONS AND ALERTS**

"Watch" a specific Member or a Gang as a whole and be automatically notified of any events they are involved in.

### **CSV FILE GENERATION**

Generate CSV file from known addresses, to export into a GIS utility or Google Earth.

### **PDF GENERATION**

Generate a PDF of gang member information. **Hot Shot Report** for quick info for a meeting, **Court Document** for a detailed full listing of all information on the gang member.

### **STREAMLINED PURGING AND MAINTENANCE**

Purge system supports incarceration holds, as well as scheduled follow up reviews to maintain compliance. Supervisors can optionally be emailed/notified.

### **TRACKING PROGRESS**

Track officer/unit/departamental progress on the Unit Activity Report, as well as several detailed canned reports. Note that the Advanced Search is a custom report generator.

### **PERMISSION LEVEL ACCESS**

Control Permissions & Access Levels, Contact / Incident Types, Security, and Data

### **HEAT-MAPPING**

Address mapping using addresses in the system.

Filter results using queries similar to the Advanced Search page

### **-COMING SOON-**

Interactive Link Analysis - Interactive graphs are being developed

Heritage / Pedigree hierarchy.

Sort all individuals in the system into a tree view based on filters, and their choice of either Rank of Affiliation.
