

ON-PREMISE - TECHNICAL REQUIREMENTS

IntelScope is a web app that is:

- Hosted on-premise on your department's server / network

On-Premise Server:

(products listed show minimum required version):

- Windows Server 2012+
Microsoft SQL Server 2012 sp3+ (Notice: Full-Text Engine **Enabled**) – We recommend having SQL server and the instance itself on separate machines. If they are running on same machine, more RAM and Drive space will be required.
- Memory: Minimum 8GB RAM (2GB used up by Operating System)
- Hard Drive: 10 GB (giga) or 20+ recommended for future growth

On-Premise Software:

- IIS (ask us for specific configuration)
- .Net version 4.8.1+
- URL Rewrite Module 2.1 - [link](#)
